Sir,

In continuation of my letter of even No dated 3-9-37, I have the honour to forward herewith the water supply Rules of the Konanur Minor Municipality, received with Konanur Municipal President's report No H C 12-37, dated 3-10-37, and to state as follows -

2 The Sanitary Engineer, who had been addressed in the matter, furnished his remarks re the Rules in question The President published a Notification in the town, on 26-8-37, specifying the changes proposed to be effected in the Rules as originally framed and called for objections within a month As no objection was received against the proposal, the matter was placed before the Municipal Council, at their meeting held on 26-9-37 when they resolved that the Rules be submitted for sanction

3 The Municipal Council also resolved at the same meeting, that water rate be charged at Re 1-0-0 and Rs 1/8/- per month for half an inch and the three-fourths of an inch connections respectively

4 The President has, in submitting the records, with copies of the above resolutions, stated that even though it is past a year and a half since house connections began to be given, still only 7 (seven) persons in the town had taken connections, that the Municipal Council had realized only Rs 120/- from this source, as against Rs 400/- provided for in the Budget Estimates during 36-37, that the place being small and the income of the rate payers not being appreciable, the people were not taking house -connections and that with a view to increase the income of the Municipality from water rate, it had been proposed to reduce the monthly rate from Rs 1-8-0 and R 2/- for ½" and ¾" inch connections to Re 1/- and Rs 1/8/-respectively and that separate action would be taken to reduce the number of public taps

5 In the circumstances stated above, I request you to be so good as to obtain the sanction of Government to the Rules in question, at an early date
